c. *As many as*: used idiomatically for 'all who'. Very common in the Bible translations beginning with Tindale, by whom it was app. introduced as a literal rendering of ὅσοι. (One earlier instance occurs in the second Wyclif version in Acts xiii. 48, where the Vulgate has the literalism *quotquot* instead of *quicumque*. The use in Luke xi. 8 is not to the point, because there ὅσοι, *quotquot*, *as many as*, have their literal sense.) Now *obs.* or *arch.*

B. quasi-*sb.* and *sb.*

1. quasi-*sb.* On the analogy of *a few* (see Few 2), *a* has from the 16th c. been prefixed to *many* when followed by a pl. sb. or used *absol.* in plural sense. In such collocations *many* formally admits of being interpreted as a sb., meaning 'a great number'. This interpretation is somewhat strained when *a many* is immediately followed by a pl. sb., because the ellipsis of *of*, which must be assumed, is abnormal; but in the other cases it presents no difficulty, and it would often be impossible to determine whether in the consciousness of the speaker the word is an adj. used absol. in pl., or a genuine sb. Confusion with Meinie, of which there are many traces in the 16th c., seems to have contributed to cause the word in this use to be apprehended as a sb. Often with prefixed adj. as in *a* † *considerable*, *good*, *great*, †*pretty*, †*jolly many*; also † *no small many*.

a. with pl. sb. (or *people*) immediately following. In this use *a many* hardly differs in sense from *many*, and is now somewhat rare in literary use, though *a good many*, *a great many*, are common colloquially.

[Occurs as F. *massepain* (in 16th c. *marcepain*), It. *marzapane*, Sp. *mazapan*, Pg. *maçapão*, Ger. *marzipan* (*martzepan* 1521, glossing *panis marcius*), Du. *marsepein* (*marcepain* in 1486), Da., Sw. *marsipan*; the Eng. forms come from various continental sources. In recent times the sweetmeat has been known chiefly as imported from Germany; hence the Ger. form *marzipan* has at least equal currency with the traditional Eng. form.

The word is believed to have come into the other Rom. langs. from Italian. Its etymology is obscure. What seems to be the same word occurs in various Rom. forms and in med.L. with the senses 'small box', 'a certain mediæval weight', and 'a mediæval coin'. Kluyver, in *Zeitschr. f. deutsche Wortforschung* July 1904, ingeniously tries to prove that the last-mentioned sense is the source of all the others. He identifies the word with med.L. *matapanus*, a Venetian coin bearing a figure of Christ on a throne (Du Cange), and suggests that it represents Arab. *mauthabān* 'a king that sits still' (Lane), which he conjectures to have been used by Saracens as a derisive name for this coin.]

Marcion accepted as sacred books ten of St. Paul's epistles and a garbled form of the gospel of Luke, and regarded the creation of the material world and the revelation of the Old Testament as the work of a finite and imperfect God, whose authority is abrogated by the manifestation of the supreme God in Jesus Christ. He discouraged marriage, and inculcated the most rigorous asceticism.

In the early Teut. langs. the word was adopted with etymologizing perversion: the Goth. *marikreitus* (from the Greek), is influenced by *mari-, marei* sea, while the WGer. forms, OE. *męregrot, -grota*, OS. *merigri(o)ta*, OHG. *merigreoz, marigreoz*, MHG. *mergriez(e*, are altered so as to express the sense 'sea-pebble'.

The word is prob. adopted from some oriental lang. (Pliny refers to it as 'barbarous'): cf. Mark (mārk), *sb.*[1] Forms 1 **mearc**, *Anglian* **merc**, (also **gemierce**, **gemęrce**, *Northumb.* **mercse**, **mercs**), 2 **marc**, 3–5 **merk(e**, (Orm. **merrke**), **merc(k**, **marck(e**, 4, 7 **marque**, 4–**mark**. [OE. *mearc*, Anglian *merc*, str. fem., boundary, landmark, sign = OFris. *merik(e*, *merke*, boundary, sign, OS. *marka* boundary (MDu. *marke*, mod.Du. *mark*), OHG. *marcha* boundary (MHG., mod.G. *mark* fem.), ON. *mǫrk* (known only in the derived sense 'forest'; Sw., Da. *mark* field, ground), Goth. *marka* boundary, landmark:—OTeut. **markâ*. A neuter form (:—OTeut. type **markom*) exists in several Teut. langs. with the senses 'sign', 'landmark', 'standard', etc.: MDu. *mark* (mod.Du. *merk*), MHG. *mark* (mod.G. has *marke* fem., prob. influenced by F. *marque*), ON., MSw. *mark*. The ME. form *merke* (disyllable), while normally representing the OAnglian pronunciation *merc*, may in part descend from ONorthumb. *męrce* (also written *męrca*), token, sign, and in part also from an adoption of the equivalent ON. *merki* neut., landmark, standard, sign (Sw. *märke*, Da. *mærke*):—OTeut. type **markjom*, f. **markâ* (see above); it may also, in northern dialects, represent partly the ONorthumb. *gemęrce* sign, token (= WS. *gemierce*, OHG. *gimerchi* boundary:—OTeut. **ga-markjom*), as the prefix *ge-* of sbs. did not survive into ME., and the palatalized *c* in final syllables became *k* in northern Eng. According to phonetic law the ME. *merke* regularly became *mark* in mod.Eng., thus coalescing with the descendant of WS. *mearc*.

The Teut. word and its derivative vb. were early adopted into Romanic; the sb. appears as OF. *merc*, *marc* masc., F. *marque* fem., mark, sign, etc., *marche* (ONF. *marque*) boundary (see March *sb.*[3]), Pr., Sp., Pg., It. *marca* mark, sign, boundary. Some of the senses developed in F. *marque* have coloured the application of the Eng. word.

The OTeut. **markâ* appears to be cogn. w. L. *margo* Margin, OCeltic **mrogi-* country (Gaulish *brogi-* in place-names, Welsh *bro*, OIrish *mruig*, *bruig*), Persian *marz* boundary. The extra-Teut. relations confirm the view which is suggested by the evidence of Teut. itself, that the primitive sense is 'boundary'. The order of development of senses which appears most probable, and is assumed as the basis of the arrangement below, is 'boundary', 'sign of a boundary', 'sign in general', 'impression, trace or device used as a sign', 'impression, trace, etc. in general'. Some scholars, however, have considered the sense 'visible trace' as primitive (comparing Lith. *margas* parti-coloured), and have supposed the sense 'boundary' to be either derived from this or to belong to an independent word.]

2. *Hist.* The name applied in mediæval Germany to the tract of land held in common by a village community. Hence used by many modern scholars to denote the tract of land similarly held by one of the village communities of primitive Teutonic times. Also *attrib.*, as in *mark-community*, *-family*, *-system*; *markmoot* (pseudo-*arch.*), a (supposed) assembly of the inhabitants of the 'mark'.

Kemble's fancy that OE. *mearc* was the name of a unit of territorial organization next below the shire (*sċīr* or *gā*) has no foundation. The alleged OE. **mearcmōt* 'mark-moot', has no existence: the *mercemot* occurring in a schedule of boundaries of land at Barrow-on-Humber in 971 (Birch *C.S.* No. 1270) may perh. mean 'parsley-bed', and in any case does not admit of Kemble's interpretation.

1848 Kemble *Saxons in Eng.* (1876) I. iii. 76 As then the word Mark is used to denote two distinct things,—a territorial division and a corporate body,—so does the word Gā or Scīr denote both [etc.]. 1867 Freeman *Norm. Conq.* (1876) I. iii. 84 Such a community occupies its own territory, its mark. *Ibid.* 98 The unit is the Mark, roughly represented by the modern parish or manor. 1874 Stubbs *Const. Hist.* (1875) I. ii. 34 We have not the mark system. *Ibid.* v. 84 *note*, That the markmoot was a court of justice .. seems altogether improbable. *Ibid.* 85 It is as an owner of land, not as a member of the mark-community, that the freeman has rights. 1876 Digby *Real Prop.* i. § 1. 5 Each community occupied a territory or mark, which was divided into three, or rather four portions. 1887 *Edin. Rev.* Jan. 10 In all Teutonic countries the same conflict was waged between the manor and the mark.

3. Used to represent G. *Mark* as the proper name of certain principalities, esp. the Mark of Brandenburg. †Also repr. It. *Marca* in *the Mark of Ancona*. (Cf. March *sb.*[3] 3.)

18. (*God*) *bless* (or *save*) *the mark* (or † *sample*): an exclamatory phrase, prob. originally serving as a formula to avert an evil omen (cf. quot. 1833) and hence used by way of apology when something horrible, disgusting, indecent or profane has been mentioned. In mod. literary use (after some of the examples in Shaks.), an expression of impatient scorn appended to a quoted expression or to a statement of fact.

[It has been affirmed (see W. A. Henderson in *N. & Q.* 8th ser. VII. 373) that the phrase was used by midwives at the birth of a child bearing a 'mark'. This may possibly be its original use: cf. quot. *a* 1625 below. The meaning of 'mark' in the expression may, however, have been 'sign' or 'omen' (see 11). There is no foundation for the statement copied in recent Dicts. from Dr. Brewer, that the phrase was originally used by archers.]

The form of the OE. word (with *a* not 'broken' before *rc*) shows that it is not a native word; some scholars have supposed it to be from ON., but the gender perhaps points rather to popular Latin as the source. The proximate origin appears to be Romanic; whether the word is ultimately Teutonic (connected with Mark *sb.*1) is doubtful.]

The med.L. representative was *marchiōnem* (*marchio*), still preserved in heraldic Latin: cf. *marchioness.*

The prevailing spelling in literary use appears to be *marquis.* Some newspapers, however, use *marquess*, and several English nobles bearing the title always write it in this way.]

1. In various European countries, the title of the ruler of certain territories (originally 'marches' or frontier districts). This gradually passed, in Romanic-speaking countries, into a mere title indicating a certain grade of noble rank, immediately below that of duke and above that of count. In English it is commonly used to designate a person of this titular rank in the modern nobility of foreign countries (though the foreign forms, It. *marchese*, Sp. *marqués*, etc. are sometimes retained), and also *Hist.* as the appellation of those territorial lords to whom it was applied in earlier times. Formerly it was often employed (now rarely) as the English equivalent of MARGRAVE.

2. At the end of the 14th c. the title was introduced into England to designate a specific degree of the peerage, between those of duke and earl. Late in the 15th c. this degree was adopted in the peerage of Scotland. The title still continues, indicating the same relative rank, in the peerage of the United Kingdom and in those of Scotland and Ireland. When a duke is also a marquis, his second title is given 'by courtesy' to his eldest son: thus the eldest son of the Duke of Devonshire is called 'the Marquis of Hartington'.

The title of a marquis is usually territorial in form, as 'the Marquis of Salisbury', but in some instances 'Marquis' is prefixed to a surname, as 'the Marquis Cornwallis'.

† 3. In the 16–17th c. often employed as a female title, equivalent to the later MARCHIONESS. *Obs.*

It is not easy to see how far this was regarded as an application of the masculine title, and how far it was taken as an anglicization of MARQUISE. The spelling *marquess* was commonly preferred in this use, prob. through association with the suffix -ESS. *Lady* was often prefixed.

Martello (maɹtē·lo). [Corruption (through association with It. *martello* hammer) of the name of Cape *Mortella* in Corsica (from It. *mortella* wild myrtle), where there was a tower of this kind which the English fleet captured with some difficulty on 8 Feb. 1794; it had been captured by the English and again abandoned in Sept. 1793.

The tower was of a type common in the Mediterranean; the stout resistance which it was able to make with a small force led to a belief among English military experts that the construction had great defensive value, and the erection of 'martello' towers was therefore strongly urged on the British government, but it was not until 1804 that any were actually erected. Windham's account of the events of 1793–4 is grossly inaccurate, but there appears to be no room for doubt that he refers to these.]

Martello tower (also, rarely, *martello*): a small circular fort with massive walls, containing vaulted rooms for the garrison, and having on the top a platform for one or two guns; usually erected on a coast to prevent the landing of enemies.

3. Martial law. a. That kind of military government of a country or district, by which the ordinary law is suspended, and the military authorities are empowered to arrest all suspected persons at their discretion, and to punish offenders without formal trial. †**b.** Formerly sometimes applied to what is now called 'military law', viz. the body of enactments and rules for the government of the army; an enactment or rule forming part of this.

Originally these two senses (in which the adj. has respectively senses 1 and 2) would not always be distinguishable, as military law existed only in war-time, and consisted mainly of temporary and occasional ordinances; our earliest quots., however, distinctly exhibit the same use as is now current. In early examples the adj. is often assimilated in spelling to MARSHAL *sb.*, and it was a common opinion that 'marshal law' was so called as being the law emanating from the lord marshal. Mod. Fr. has *loi martiale*, but perh. from English.

Martingale (mā·rtingēl), *sb.* Also 6–7 **martingall,** 7–9 **martingal.** [a. F. *martingale* (Cotgr. 1611 in sense 1), of obscure etymology.

First found in Rabelais in *chausses a la martingale* hose that fastened at the back (hence Sp., It. *martingala* a sort of hose, in Sp. also cuishes). This is commonly supposed to mean literally 'hose after the fashion of Martigues' (in Provence), and the 'martingale' for a horse is assumed to have been so named from its similarity to hose of this kind. It is, however, doubtful whether Rabelais's *a la martingale* is anything but a jocular application of the term of the manege, though the mod. Prov. dicts. give *martegalo* as one of the Pr. forms of the word.]

2. *Her.* An imaginary bird without feet, borne as a charge. Used as a mark of cadency for a fourth son.

In French heraldry the corresponding bird (described as having neither feet nor beak) is called *merlette* (OF. *merlete, meslete*; AF. heraldry had *merelot, merlot,* with differing dim. suffix). This word is app. a dim. of *merle* blackbird; according to Littré it has the sense 'female blackbird', but only the heraldic sense appears in Hatz.-Darm. It seems possible that the heraldic bird may originally have been intended for a 'little blackbird', represented without feet by accident or caprice, or with symbolical intention, and that the English heralds of the 16th c. or earlier identified the bird so depicted with the 'martlet' or swift, which has short legs, whence its mod. specific name *apus*—Gr. ἄπους footless. It is noteworthy that the 'martlets' (so called in the 16th c.) in the pretended arms of Edward the Confessor were at an early period portrayed with feet. The anglicized form of *merlete,* MARLET, does not occur in heraldic use, but appears in several 16th c. instances with the sense of *martlet,* i.e. a swift or a martin. According to English heraldic writers, the use of the footless bird as a mark of cadency for younger sons was meant to symbolize their position as having no footing in the ancestral lands.

Popularly, however, this sense has long tended to be apprehended as a specific use of sense 2.

Mask (mask), *sb.*[3] Forms: (6 **measque**), 6–7 **maske,** 6–9 **masque,** 7– **mask.** [a. F. *masque* masc. (in 16th c. also fem.) of disputed origin, whence also G., Du. *maske* fem., Da. *maske* com., Sw. *mask* fem. MASQUE *sb.* was orig. a sense of the same word, now differentiated in spelling.

The Fr. word (first recorded in 16th c.) is usually believed to be ad. the synonymous Sp. *máscara*, It. *maschera* (see MASKER *sb.*[1], MASQUERADE). But it is difficult to believe that the word has no connexion with med.L. *mascus, masca*, which render OE. *grima* mask, spectre, in the Corpus Glossary *c* 725. *Mascha* is used *c* 680 by Aldhelm in association with *larva*, which had the senses 'mask' and 'spectre', and *masca* occurs in the Lombard Laws *c* 800 with the sense 'witch'; cf. Pr. *masco* witch (see MASCOT). On the whole the most plausible view seems to be that the representative of med.L. *mascus, masca* survived in some Fr. dialect, and was thence taken into literary use as an equivalent of the like-sounding Sp. *máscara*. The origin of med.L. *mascus, masca*, is undetermined; some scholars think the original sense was 'mask', and that the word was from Teut. **maskwo-* net (see MESH *sb.*).]

MHG. *mess(e* neut., brass (early mod.G. *mess*, *möss*, *mesch*, *mösch*; still *dial.*), whence (with suffix = -ING[3]) the synon. MHG., MDu. *messinc*, *missinc* masc., neut. (OSw. *mässinger*, Sw. *messing* masc., Da. *messing* com.); LG. has a parallel formation *mesken* (see -KIN).

Most scholars have regarded the OHG. *messe* neut., brass, as identical with MHG. *mâsse*, *messe* fem., lump (of metal), usually believed to be a derivative of L. *massa* MASS *sb.*[1] The supposition involves serious difficulties, and has latterly been questioned (Kluge, Franck), but no plausible alternative has been found. It does not seem possible to connect the words with L. (*æs*) *miscellum* mixed brass, or with the popular Lat. word represented in MASLIN[2]. The MHG. *messinc* passed into Slavonic (Czech, Upper Serb. *mosaz*, Lower Serb. *mjesnik*, Little Russian *mosaž*, White Russian *mosenz*: - **mosengjü*) and Lith. (*masadis*). The view of Schrader that the Slav. word is the source of the MHG. is improbable, and leaves the OE. forms and the MHG. *messe* unexplained. On the other hand, Schrader's comparison of certain oriental words for brass (Kirghiz *moes*, Kurdish *mys*, Persian *mis*, Mazendoran *mers*, *mis*) seems worthy of consideration.]

The recorded forms in med.L. are *machio* (7th c. in Isidore, who explains the word as a derivative of *māchina* machine), *matio* (8th c. in the Reichenau Glosses, *c* 1000 in Ælfric), *macio*, *mattio*, *mactio*, and (latinized from the Fr.) *macho*, *maco*.

The ulterior etymology is obscure. The evidence of Isidore tends to show that the form with *c* is original, and some scholars have suggested that the word is from the root of L. *macerĭa*, wall. On the other hand, the stem *mattiōn-* agrees with the OHG. *mezzo* (also in comb. *steinmezzo*, mod.G. *steinmetz*, stonemason):—prehistoric **mattjon-*. This is commonly regarded as the source of the Rom. word, but it has no affinities in Teut. (unless it be cogn. w. OE. *mattuc* MATTOCK), and may be adopted from late Latin.]

‖ **Masora(h, Massora(h** (măsō·rā). Also **Mas(s)oreth** (măsō·reþ). [More correctly *Masoreth,* repr. Heb. מָסֹרֶת *māsōreth,* a word occurring in Ezek. xx. 37, where (by those scholars who do not regard the text as corrupt) it is interpreted 'bond (of the covenant)', and referred to the root אָסַר to bind. In post-biblical Heb. the word became common in the sense of 'tradition', being apprehended as from the root מָסַר to deliver, hand down; on this view of its etymology the normal punctuation would be מְסֹרֶת *massōreth,* which many modern scholars have adopted, though without ancient authority. The mod.Heb. מָסוֹרָה *māsōrāh* (whence mod. Latin *Masora,* F. *Massora, Massore,* G. *Masora,* Eng. *Masora, Masorah*), is said to date only from the 16th c., and (with this vocalization) is an abnormal formation from the root מסר.] The body of traditional information relating to the text of the Hebrew Bible, compiled by Jewish scholars in the tenth and preceding centuries; the collection of critical notes in which this information is preserved. 2. A form of amateur histrionic entertainment, popular at Court and amongst the nobility in England during the latter part of the 16th c. and the first half of the 17th c.; originally consisting of dancing and acting in dumb show, the performers being masked and habited in character; afterwards including dialogue (usually poetical) and song.

L. *missa*. The Teut. forms, partly from vulgar Lat. and partly from written Latin, are: OFris., OS. *missa* (MDu. *misse, messe*, mod.Du. *mis*), MHG. *misse, messe* (mod.G. *messe*), ON. *messa* (Sw. *messa*, Da. *messe*).

It is now generally agreed that the L. *missa* is a verbal sb. (formed like *repulsa, collecta, offensa*) from L. *mittĕre* (pa. pple. *missus*) to send, send away, dismiss. The earliest known examples of the word belong to the last quarter of the 4th century, occurring in the Epistles of St. Ambrose and the Itinerary of Silvia of Aquitania. In the early centuries it had the general sense of 'religious service', being applicable, e.g., to matins and vespers, though in an eminent sense it always denoted the Eucharist. In secular application it occurs, though rarely, in the 5th and 6th centuries with the sense 'dismissal'. The origin of the liturgical application has been much disputed. Isidore (*a* 636) conjectured that the original reference was to the dismissal of the catechumens which was the preliminary to the eucharistic service. This explanation is not favoured by modern scholars, who consider that the wider sense 'religious service' is more likely than the narrower sense to have been the original. Some think that *missa* at first denoted the solemn dimissory formula at the conclusion of a service, *Ite, missa est*, and hence came to be applied to the service itself. Others (as Kattenbusch in Herzog's *Encycl.*) have suggested, on confessedly slender and doubtful evidence, that *missa* in secular use had some such sense as 'commission', 'official duty', and was therefore adopted as the rendering of Gr. λειτουργία (see LITURGY), which had primarily a similar meaning, but in ecclesiastical language was used for 'religious service' and specifically for the Eucharist. Several other theories have been proposed, but none of them has gained wide acceptance among scholars.]

1. The Eucharistic service; in post-Reformation use, chiefly that of the Roman Catholic Church.

In the 16th c. the Protestants generally objected to the term as being unscriptural, and as associated with the

'popish' view of the nature of the sacrament. (In Sweden and Denmark, however, the equivalent words are applied to the Lutheran communion service.) In the first Prayer-book of Edward VI (1548-9) the heading of the service reads 'The Holy Communion, commonly called the Masse', but in the subsequent Prayer-books the word was not used. In recent years some of the Anglican clergy have applied the term to their own rite.

21. A title prefixed to the name or designation of a man. Originally used only in speaking of or to a man either of high social rank or of learning (sometimes, esp. in Scotland, applied *spec.* to a Master of Arts), but gradually extended in application. In ordinary use now only *dial.*, but in literature sometimes *arch.* or *Hist.*; otherwise superseded by MR. (pronounced mi'stəɹ).

The obscured pronunciation resulting from proclitic use doubtless began while the written form *master* was still commonly employed. Before the end of the 17th c. the abbreviation *Mr.* (originally only one among many others used for the word in all applications) had come to be restricted to the use in which the pronunciation was obscured, and to be the only permitted mode of writing the word in that use. Thenceforward *master* and *Mr.* were practically two words, distinct both in function and in form. In this Dictionary the abbreviation MR., in all its historical varieties of use, will be treated in its alphabetical place.

a. Prefixed to a surname or a Christian name.

Down to the 16th c. or a little later, *master* could be prefixed to the name of a knight or a bishop; at an earlier period it was freely used with the names of personages of ancient history and ancient writers. Some modern dialects have only one form for *Master* and *Mr.* as prefixed titles; others have both prefixes with a difference of function, *Mr.* being the superior title. (See E. D. D.)

Hence occas. *masters and misses* = young people. †*Master-miss*: an effeminate youth.

Also in late L. form 5–8 **mastix**, (7 **-ixe**). [a. F. *mastic* masc. (from 13th c.), ad. late L. *mastichum* (also *mastix*), altered form of L. *masticha, mastiché, mastiçe*, a. Gr. μαστίχη. Cf. The etymology of Gr. μαστίχη is somewhat obscure. As mastic is in the East commonly used as a 'chewing gum', it is not improbable that the word is (as Apollodorus suggested) from the root of μασᾶσθαι to chew; cf. μάσταξ jaw, μαστιχᾶν (once, in Hesiod) to gnash the teeth; but the formation has not been explained.]

The ceremony of washing the feet of poor persons on the day before Good Friday was instituted in commemoration of Christ's washing the apostles' feet at the Last Supper, and of his injunction that his disciples should in like manner wash one another's feet (John xiii. 14). The words 'A new commandment (*mandatum novum*) give I unto you, that ye love one another' (*ibid.* 34) from the discourse which followed the washing of the apostles' feet, were adopted as the first antiphon sung at the commemorative observance, which hence acquired the name of *mandatum*. (Hence OHG. *mandāt*, in Otfrid's paraphrase of John xiii. 12–14.) In later use, perh. owing to the currency of *dies mandati* (lit. 'day of the commandment') as a name for the day before Good Friday, *mandatum* frequently denoted the Last Supper itself.]

May (mē; unstressed mė, mḙ), *v.*[1] Forms: see below. [A Com. The conjugation is abnormal; according to Brugmann *Grundriss* II. § 887 the verb was originally a thematic present with weak root-vowel, and was attracted into the preterite-present class by analogy.]

II. As an auxiliary of predication; with a following simple inf., or with ellipsis of this.

May shares with various other auxiliary vbs. (as *can, will, shall*) the characteristic that the inflected past subjunctive (though coinciding formally with the past indicative) retains its original functions. Like other past subjunctives, *might* is frequently used in a sense which differs from that of the present form not temporally but modally (partly corresponding to the 'present conditional' of Romanic grammar). The fact that *might* thus admits of three different meanings is sometimes productive of ambiguity, which has to be avoided by recourse to some different form of expression. Further, *may* agrees with certain other auxiliaries in having no pa. pple.; hence its pa. t. is used with a following perfect infinitive where logical correctness would require the plupf. tense (ind. or subj.) of the auxiliary followed by a present infinitive. Thus, in sense 3 below, *he might do* may be paraphrased either 'he was free to do' or 'he would be free to do'; and *he might have done*=either 'he had been free to do' or 'he would have been free to do'.

¶**b.** The pa. t. indicative in this sense (*he might* = 'he had opportunity to', 'it was possible for him to') is, exc. in actual or virtual obliqua oratio, now obsolete, on account of the tendency to interpret *might* as subjunctive. In poetry *might* was sometimes nearly equivalent to 'did'.

This use is strikingly characteristic of the style of Gibbon, as is also that explained under 5 c; it is often difficult to determine which of the two senses he intended.

¶ b. *Law.* In the interpretation of statutes, it has often been ruled that *may* is to be understood as equivalent to *shall* or *must*.

1728 Skinner *K. B. Rep.* 370 For *may* in the Case of a publick Officer is tantamount to *shall*. 1782 Atkyns *Chancery Rep.* III. 166 The words *shall and may* in general acts of parliament, or in private constitutions, are to be construed imperatively, they *must* remove them. 1873 Blackburn in *Law Rep.*, 8 *Q. 5. Expressing subjective possibility, i.e. the admissibility of a supposition.

c. In the 18th c. it was common to use *might be* or *do* in the sense of 'perhaps was' or 'did'. This is now rare.

The now current form *may have been* or *done* (5 d) is more logical, as the subjective possibility is a matter of the speaker's present.

1753 Richardson *Grandison* (1811) II. xxix. 297 Your father, my dear, (but you might not know that,) could have absolved you from this promise. 1762 Hurd *Lett. Chiv. & Rom.* 85 After all, these two respectable writers might not intend the mischief they were doing. *c* 1789 Gibbon *Autobiog.* (1896) 258 After the publication of my Essay, I revolved the plan of a second work; and a secret Genius might whisper in my ear that [etc.]. 1834 *Tracts for Times* No. 22. p. 3 All along the whole length of the garden (which might be perhaps nearly one hundred yards)..he had fixed ..stakes. 1862 Borrow *Wild Wales* xcv, It might be about half-past two in the afternoon when I left Lampeter.

6. Uses of the pa. t. subj. (in any of the senses 2–5) in the statement of a rejected hypothesis (or a future contingency deemed improbable) and its consequences.

a. in the protasis. (In poetry, sometimes with inversion: *might I* = *if I might*.)

8. As an auxiliary of the subjunctive mood.

a. Since the desire for an end involves the desire for the possibility of the end, *may* in sense 3 in combination with an inf. is used, in clauses involving the idea of purpose or contemplated result, to express virtually the same meaning as the subjunctive of the principal verb. Hence this combination has come to serve as a periphrastic subjunctive, which has in ordinary prose use superseded the simple subjunctive in final clauses.

(*a*) in final clauses introduced by *that* or *lest*; also occas. with ellipsis of *that* (e.g. after *to the end*).

c 900 tr. *Bæda's Hist.* II. i. (Schipper) 107 Onfoh þu eorþe lichaman of þinum lichaman ȝenumen, þæt þu hine eft azyfan mæȝe, þonne hine God liffæste. *c* 950 *Lindisf. b. In exclamatory expressions of wish, *may* with the inf. is synonymous with the simple pres. subj., which (exc. *poet.* and *rhet.*) it has superseded.

The subject normally follows *may*, but examples are found in the older lang. in which this is not so.

1586 Marlowe *1st Pt. c. *Might* is also used to express a wish, esp. when its realization is thought hardly possible.

This use appears to be developed from the hypothetical use (6 a).

d. *May* with the inf. of a vb. is used (instead of the simple indicative or subjunctive) to emphasize the uncertainty of what is referred to:

(*a*) in indirect questions depending on such verbs as *ask, think, wonder, doubt*, and their allied sbs.

F. *maire* (from 13th c.):—L. *mājor* nom., properly adj., greater (see MAJOR). OF. had also a form *maor, meor*:—L. *mājōrem* acc., which may be represented in some of the ME. forms. The spelling *maio(u)r*, common in the 16th c., seems to be intended to represent the L. *major*, but as the *i* could be read as a vowel, this form became phonetically nearly coincident with those adopted from Fr. The substitution of *y* for *i* was in accordance with the orthographical habits of the 16–17th c., and need not be ascribed to imitation of the Sp. form *mayor.*

The med.L. *mājor* as a title was adopted as OHG. *meinr*, whence MHG. *meier, meiger*, mod.G. *meier* farm bailiff, farmer. Du. *meier* has both senses, 'mayor' and 'farmer'.]

1. The head or chief officer of the municipal corporation of a city or borough.

The title is used in England and Ireland (see also LORD MAYOR), in the British Colonies, and in the U. S. It was formerly borne by the heads of certain royal burghs in Scotland, but has there been long superseded by *provost*. It occasionally renders its etymological equivalent (F. *maire*) as the title of a similar municipal officer in French towns, though the Fr. word is now more commonly used; similarly, *mayor* was formerly used occas. to designate certain administrative officers in Holland and Switzerland (cf. MAYORALTY 3, MAYORY).

The continued practice of electing mayors in some decayed boroughs (e. g. Queenborough in Sheppey) which had become mere villages or hamlets is a common matter of jesting allusion in the literature of the 17th c. There are also in various parts of the country instances in which a so-called 'mayor' is or was elected periodically with burlesque ceremonies; of these mock-dignitaries the 'Mayor of Garratt', near Wandsworth, is the best-known example.
